**CLINICAL EXAMINATION REPORT**

**LOT:** 532  
**Name:** CINNAMON DOVE 2019  
**Microchip Number:** 985100012167299  
**Brands:** N/S: N OVER BAR, O/S: 15/9  
**Farm:** Newgate Farm  
**Height:**  
**Weight:**

The above horse was examined today at the request of Jim Carey. The findings of a clinical examination were as follows:

- 1) Sound at the walk
- 2) Feet within normal limits
- 3) Limb examination: no observable abnormalities or swellings – joint distension or otherwise
- 4) Had normal eyes & vision
- 5) Heart was in normal rhythm
- 6) No parrot mouth or other hereditary defect was observed
- 7) Left testicle descended. Right testicle partially descended, tip could be palpated inguinally.

Small recent skin graze and haematoma present over right forehead region

*Dr Bridget Bester BVMS CertEM (StudMed)*
