**CLINICAL EXAMINATION REPORT**

**LOT:** 446  
**Name:** AJEETA 2019  
**Microchip Number:** 985100012167280  
**Brands:** N/S: VERTICAL LINE LIGHTNING BOLT CONJOINED, O/S: 2/9  
**Farm:** Newgate Farm  
**Height:** 15.1h  
**Weight:** 448kg

The above horse was examined today at the request of Jim Carey. The findings of a clinical examination were as follows:

- 1) Sound at the walk
- 2) Feet within normal limits
- 3) Left hindlimb residual swelling from minor wounds- no clinical significance. Had no other observable swellings – joint distension or otherwise
- 4) Had normal eyes & vision
- 5) Heart was in normal rhythm
- 6) No parrot mouth or other hereditary defect was observed
- 7) Two descended testicles present

*Dr Bridget Bester BVMS CertEM (StudMed)*
