**VETERINARY CERTIFICATE**

This is to certify that I examined the horse identified as Jay Belle, microchip 985100012042382, at Epona Park on the 8<sup>th</sup> of June 2018. The horse was examined by ultrasound examination of the internal reproductive tract and was found to be not detectably pregnant. There were no abnormalities detected on ultrasound examination or external examination of the reproductive tract.
