VETERINARY CERTIFICATE

This is to certify that I examined the horse identified as 'Tahlia', microchip 985100012016980, brands near side V, off side 151 over 2, at Epona Park on the Thursday 14th of June 2018.

The mare was examined by ultrasound examination of the internal reproductive tract and was found to not be detectably pregnant. There were no abnormalities detected on ultrasound examination or external examination of the reproductive tract.

A handwritten signature in black ink, appearing to read "Dr. Calum Paltridge", with a long, sweeping horizontal line extending to the right.

Dr Calum Paltridge

BVSc (Hons)

Associate Veterinarian

Golden Plains Equine
